I doubt whether the entire expenditure or even a substantial part of it can be recouped by the sale of the sites but as the acquisition will be gradual, the requirements for any particular year may not be heavy On the understanding that the net expenditure on the scheme will be met from the ordinary annual grants to the T B, the proposal may perhaps be sanctioned

CHIEF SECRETARY
1 DEC 1928

SIR

I have the honour to state that there are several insanitary houses, some of them in a dangerous condition along Doddapetta which is a very important and busy road and which is the main procession route during the Dasara and Birthday festivities and functions The existence of such houses in this thickly populated and important locality is not only an eye-sore but also a regular menace to public health and safety It is therefore very necessary in the interests of the inhabitants of the locality to get these houses reconstructed as early as possible The conditions of things round the Mandi Market and to the west of Devaraja Market are similar

2 The Board has not been able to set apart a fair allotment for the acquisition of these houses with the limited resources of the Board though this is one of the most pressing subjects They have therefore resolved that the Government may be moved to sanction an advance of rupees one lakh to be operated upon as an advance in the nature of imprest to enable them to acquire the insanitary dilapidated and dangerous buildings in Doddapet and other important main streets Separate capital and revenue accounts will be maintained for these transactions and the advance will be recouped by sale of the sites so acquired and the net losses will be charged off as expenditure in the budget every year

3 I request that you may be so good as to submit the said Resolution of the Board to Government and obtain their kind sanction thereto

CITY IMPROVEMENT TRUST BOARD
MYSORE

Dated 4th June 1929

Dear Sir

May I refer you to your letter No L 7531/A1 182-28 dated the 14th May 1929 regarding acquisitions?

I wish to point out that no acquisition work in the City can be remunerative unless it is the conversion of agricultural plots into house sites If as resolved by the Board the sites made available by the acquisition and demolition of properties are sold in public auction and a higher rate is realised th reaction will be very great for in cases of succeeding acquisitions the parties will naturally demand the same rate for the land thereby making further operations more costly and complicated

As regards the proposal of the Board to meet the deficit out of the Trust Board Budget every year I am of opinion th t for reasons given above the deficit will be great and cannot be met without detriment to other important works if it exceeds the anrual budget allotment for acquisition Under these circumstances an additional grant will be more suitable to carry on acquisitions pending from a long time and urged frequently

I ma however mention that estimates to the extent of nearly 2 lakhs for acquiring houses for improvement purposes have been prepared and will be submitted if the origina idea of remunerative acquisition still finds favour with you

Yours sincerely -

M Ramaswamy
